

# HIKES AND LEGENDARY SWISS TRAIN 10 days self-guided

To extend your journey a little further...

Cho choooo...

Steam locomotives have given way to electric motors on the Swiss red trains but the magic is still working. In the heart of the Alps, the different lines weave between the valleys, passing from viaducts to tunnels, from forests to alpine pastures and leading to the most beautiful hiking spots. It is an opportunity to leave your car at home but above all to travel the country long, wide and across to take the time to contemplate the landscape. The various stops will allow you to soak up the local atmosphere, very diverse in this multilingual country, and to hike at your own pace!

This 10-day tour covers some of the most beautiful lines in the Alps: the Simplon tunnel, the Centovalli blue train on the border with Italy, the famous Bernina line, a UNESCO World Heritage Site, and the Glacier Express line that runs from the Rhine Gorge to Zermatt. Whilst still staying in Switzerland, the stops will take you through the Italian-speaking Ticino Great Lakes region, the snowy mountains of Romansh Grisons and a finale at the foot of the Matterhorn in Zermatt.
