

TOUR OF HAUT QUEYRAS

Under the sun of the Southern Alps

Sometimes called little Switzerland, the Queyras region is known above all for its high villages, its larch forests and its wide mountain pastures. On the edge of the Italian border, this massif benefits from the coolness of the mountains and the blue sky of the Southern Alps. There are more than 300 days of sunshine per year! On the border, the imposing Mount Viso (3841 m), the 2nd Italian summit, rises.

Here nature is wild and preserved by the Regional Natural Park: numerous high altitude lakes, rare floral species, abundant mountain fauna (hares, marmots, chamois, eagles and even wolves...).

This stay plays at jumping the border, between two countries but also between two worlds, between virgin high altitude spaces and valleys rich in an authentic heritage.
